

Student Scene at ESD 105

Student Scene

www.studentscene.us

Students sharing help, ideas, and art through a variety of online publishing opportunities.

The Student Scene web site at <http://studentscene.us> is funded by the ESD 105 Safe Schools Healthy Students (SSHS) Initiative. The purpose of the site is to provide opportunities for high school students to share their experiences with others and to provide meaningful help to those in need. The focus of the Student Scene site is to reconnect students to learning and relationships through the use of technology, specifically web design and online publishing, while creating an awareness of the affects of positive choices in their lives.

Participating School Districts

While the following school districts are active participants in the SSHS Initiative, the Student Scene site is available for any school district or student to use. Teacher participation and supervision is required.

Granger School District
Grandview School District
Mabton School District
Mt. Adams School District
Sunnyside School District
Toppenish School District
Wahluke School District
Wapato School District

Students from the participating districts have contributed to the site over the last two years. Many web pages and videos have been produced with a safe schools healthy student emphasis, including a strong tobacco prevention message in much of the student work. We encourage teachers to participate in student publishing.

Opportunities for Students to Publish

Web Design Curriculum

Students and teachers can learn to create and post web pages through the web design curriculum provided on the Student Scene site. Teachers can use the online curriculum to engage students in technology and relevant life issues. After approval by the teacher, a student web page can be uploaded for review by the ESD 105 Learning Support staff and posted to the site.

Online Articles

Students are encouraged to publish their reports, thoughts, inspirations, poems, etc. on the Student Scene site. Teachers, you are also welcome to submit quality student written work about safe school healthy student issues.

Art/Photography

Students are also encouraged to contribute artwork to the Art Gallery. Any medium is acceptable. Art must portray a positive outlook on life or communicate success and achievement. Final decision on whether to display a piece of art will be determined by the ESD 105 Learning Support staff.

Student Forum

Students may register as users to the Student Scene site and participate in forum discussions with students from other districts. All forums are moderated and content reviewed before being posted. This is not online chat or IM and will be closely monitored. For more specific information on how to use the site, go to studentscene.us and click on the FAQ link.
